

SHERIDAN COUNTY CONSERVATION DISTRICT

2024-2025 Seedling Tree Program Order Form

This nursery stock must be used for conservation purposes, not in ornamental or landscape plantings. Plants purchased may not be resold as living plants and are for use in **Sheridan County, WY**. Payment must accompany order. If plants ordered are not available, a substitution or refund can be issued.

Seedlings generally arrive in early May. Due to shipping variability, pickup dates will not be set until we receive shipping confirmation from the nurseries. At that time, we will notify customers via email of pickup dates. Please provide your email below. **Timely pickup of plants is crucial to their survival.**

Please sign to confirm you have read and agree with the above "Conditions of Sale."

SHERIDAN COUNTY CONSERVATION DISTRICT
2024-2025 Seedling Tree Program Plant Descriptions

Although the species listed have proven adaptable to Wyoming conditions, each species may have limited adaptability to local soils types and conditions.

Visit www.plants.usda.gov for more information on species and planting guides.

Seedlings	Height	Drought Resistance	Cold Hardiness	Growth Rate	Wildlife Value	Other Characteristics
Deciduous Shrubs						
Buffaloberry	3-20'	Good	Excellent	Moderate	Food and cover for small game and songbirds	Edible fruit; forms thickets
Caragana	8-15'	Excellent	Excellent	Rapid	Cover and food for songbirds, upland game	Yellow flowers; groundcover plant binds soil
Common Lilac	8-12'	Very Good	Excellent	Rapid	Cover for songbirds	Fragrant flowers; can form dense barrier
Golden Currant	3-10'	Good	Good	Rapid	Food, browse, and nesting cover	Yellow flowers; edible fruit
Juneberry (Serviceberry)	Up to 8'	Fair	Excellent	Moderate	Big game browse; food for upland game	Showy white flowers; edible fruit; moist soils
Nanking Cherry	Up to 8'	Good	Excellent	Rapid	Song and game birds	White flowers in spring; edible fruit
Native Plum	Up to 15'	Good	Excellent	Rapid	Provides nesting cover and food; browse for hoofed mammals	White flowers; edible fruit; thicket forming
Redosier Dogwood	Up to 8'	Fair	Excellent	Rapid	Grouse, pheasant, turkey, grosbeak, robin	Vivid red fall foliage and stems
Three-Leaf Sumac	2-8'	Excellent	Excellent	Moderate	Food for birds and small mammals; thickets for cover/nesting	Red-orange fall foliage
Wild Rose	Up to 6'	Good	Excellent	Rapid	Big game browse; food for grouse, turkey, pheasant	Showy flowers; native; moist soils
Deciduous Trees						
Black Walnut	50-70'	Poor	Moderate	Moderate	Birds, foxes, squirrels	Flowers in the spring
Bur Oak	Up to 75'	Excellent	Excellent	Slow	Acorns for birds and mammals	Lifespan 200 + years
Chokecherry	6-20'	Good	Excellent	Rapid	Song and ground birds, small mammals, deer	Yellow orange fall foliage; edible fruit
Golden Willow	30-55'	Poor	Excellent	Rapid	Song, game birds; buds, food for mammals, hoofed browsers	Requires moist soil, can be messy
Hackberry	40-60'	Very Good	Very Good	Moderate	Cover for birds, rabbits, deer; nesting and food for birds	Tolerates alkaline well
Honeylocust	35-75'	Very Good	Very Good	Rapid	Food for deer, squirrels, rabbits; cover for game animals, birds	Hardy; usually thornless
Manchurian Apricot	10-15'	Moderate	Good	Rapid	Nesting for songbirds	Grows best in well-drained, loamy soils
Plains Cottonwood	75-100'	Poor	Excellent	Rapid	Nesting and roosting cover	Wyoming state tree
Siouxland Cottonwood	40-50'	Moderate	Excellent	Rapid	Fair for nesting and roosting; buds provide food for birds	Cottonless, male tree; selected for leaf rust resistance
Coniferous Trees						
Colorado Blue Spruce	60-100'	Fair	Excellent	Slow	Birds, grouse, hoofed and small browsers	Tolerates alkaline soils well
Ponderosa Pine	40-100'	Excellent	Excellent	Moderate	Song and ground birds, small mammals, browsers	Needs well-drained soils
Perennials						
	Height (in)	Bloom Color	Bloom Time	Light	Pollinator & Wildlife Value	Other Characteristics
Blanket Flower	8-24"	Yellow, orange, red	June-Sept.	Full sun	Food and cover for bees and butterflies; upland game	Drought tolerant
Rocky Mtn. Penstemon	18-30"	Purple-blue	June-July	Full to part sun	Bees and hummingbirds; deer, antelope, and birds	Semi-evergreen perennial; hardy
Smooth Aster	12-39"	Purple	Aug.-Oct.	Full to part sun	Bees and butterflies; food for songbirds and small mammals	Host plant for Pearl Crescent butterfly
Western Yarrow	12-40"	White	June-Sept.	Full to part sun	Bees and butterflies; food for antelope, deer, upland birds	Highly adaptable; rhizomatous spreader
Wild Bergamot (Beebalm)	12-40"	Purple-pink	June-Sept.	Full to part sun	Bees, butterflies and hummingbirds	Edible; medicinal uses; deer resistant
